The Rio Grande 5504 goes to Germantown, MD

One day, Rio Grande 5504 went on a day trip to Germantown, MD because they wanted to see all of the different trees.

First 5504 went to the town to see tall trees.

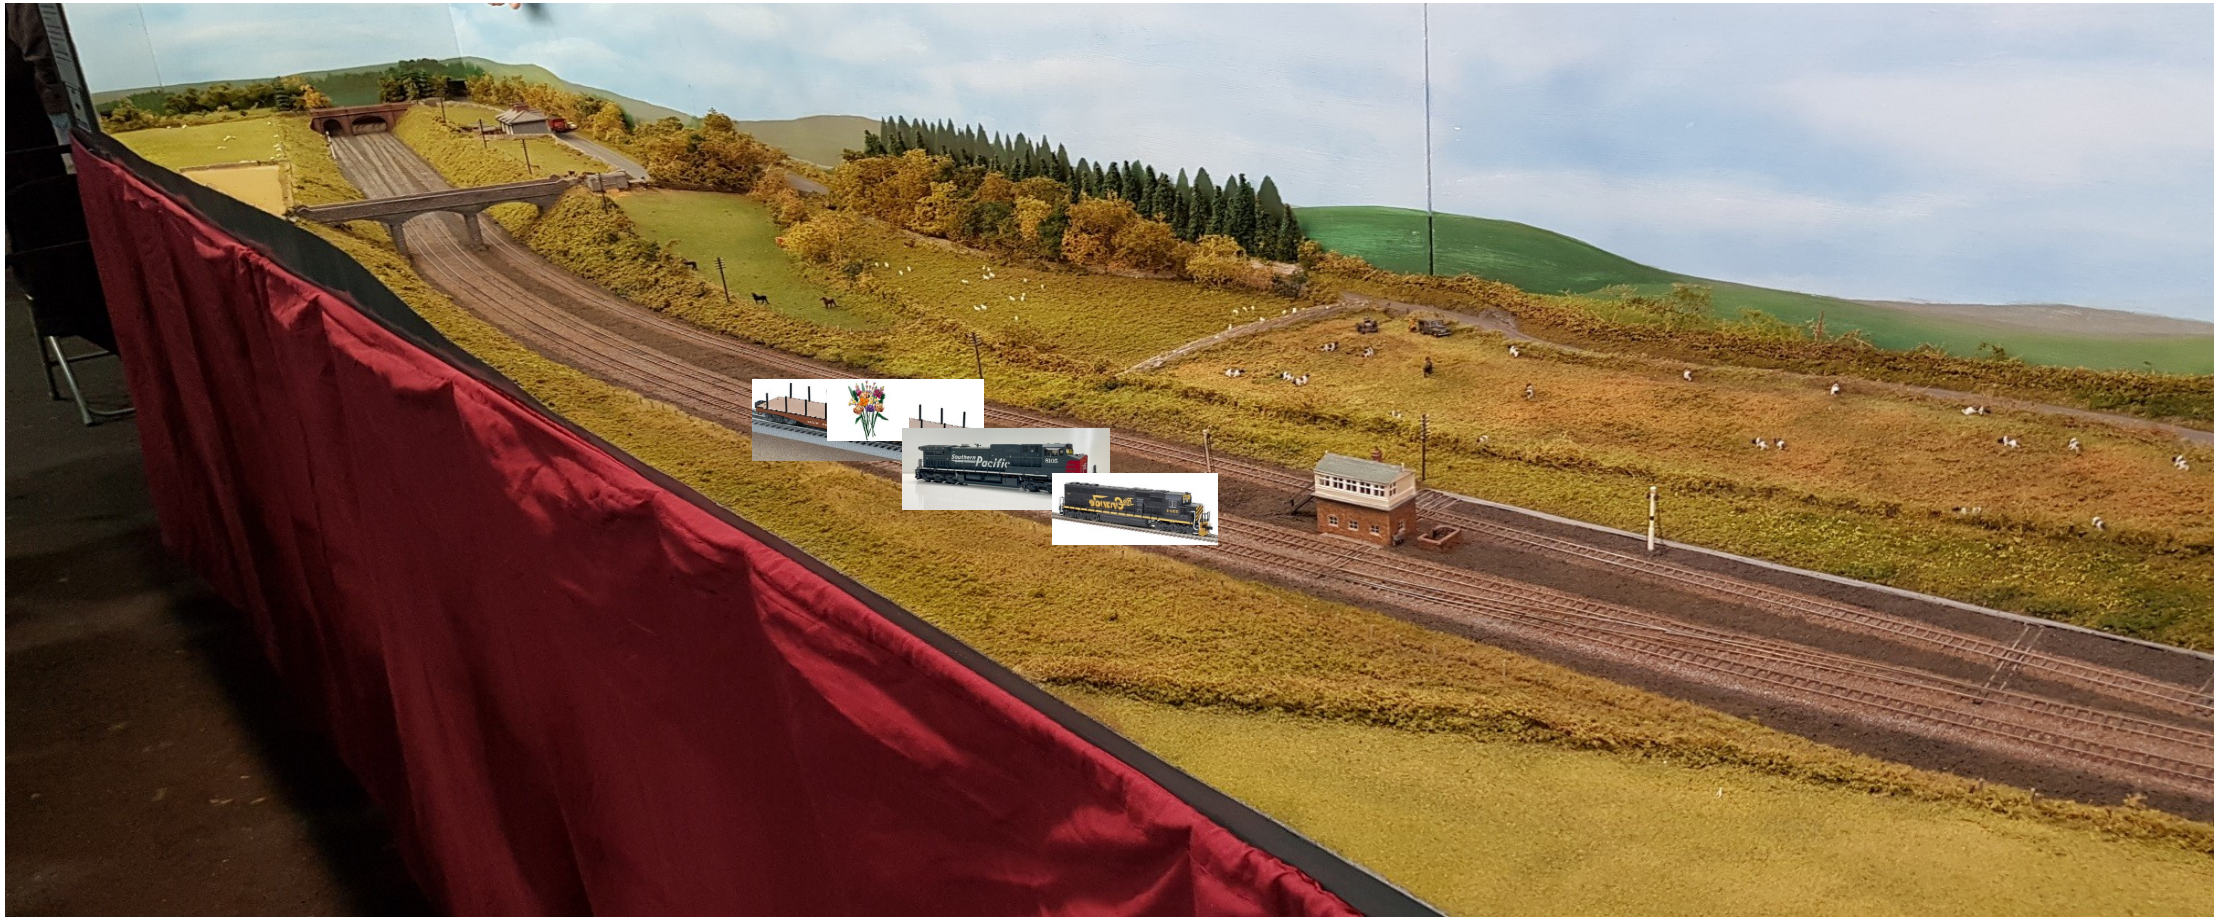
As 5504 was going down the street they noticed some colorful trees in the center of the town.

5504 met 8105 at the intersection.

At the intersection the pair decided to go to Marshalls next.

“I really need to get a present for my Dad because Christmas is coming up and I have no idea what to get my Dad” said 5504. “I think you should get them a lego flower.” Replied 8501

Then they decided to take the Lego Flower to Dad.



When the trains arrived at the house it was time for Dinner so they went to their room.

Then they went to the living room.

On the computer they were watching Thomas.

As they were watching Thomas they decided they wanted to go to the beach next.

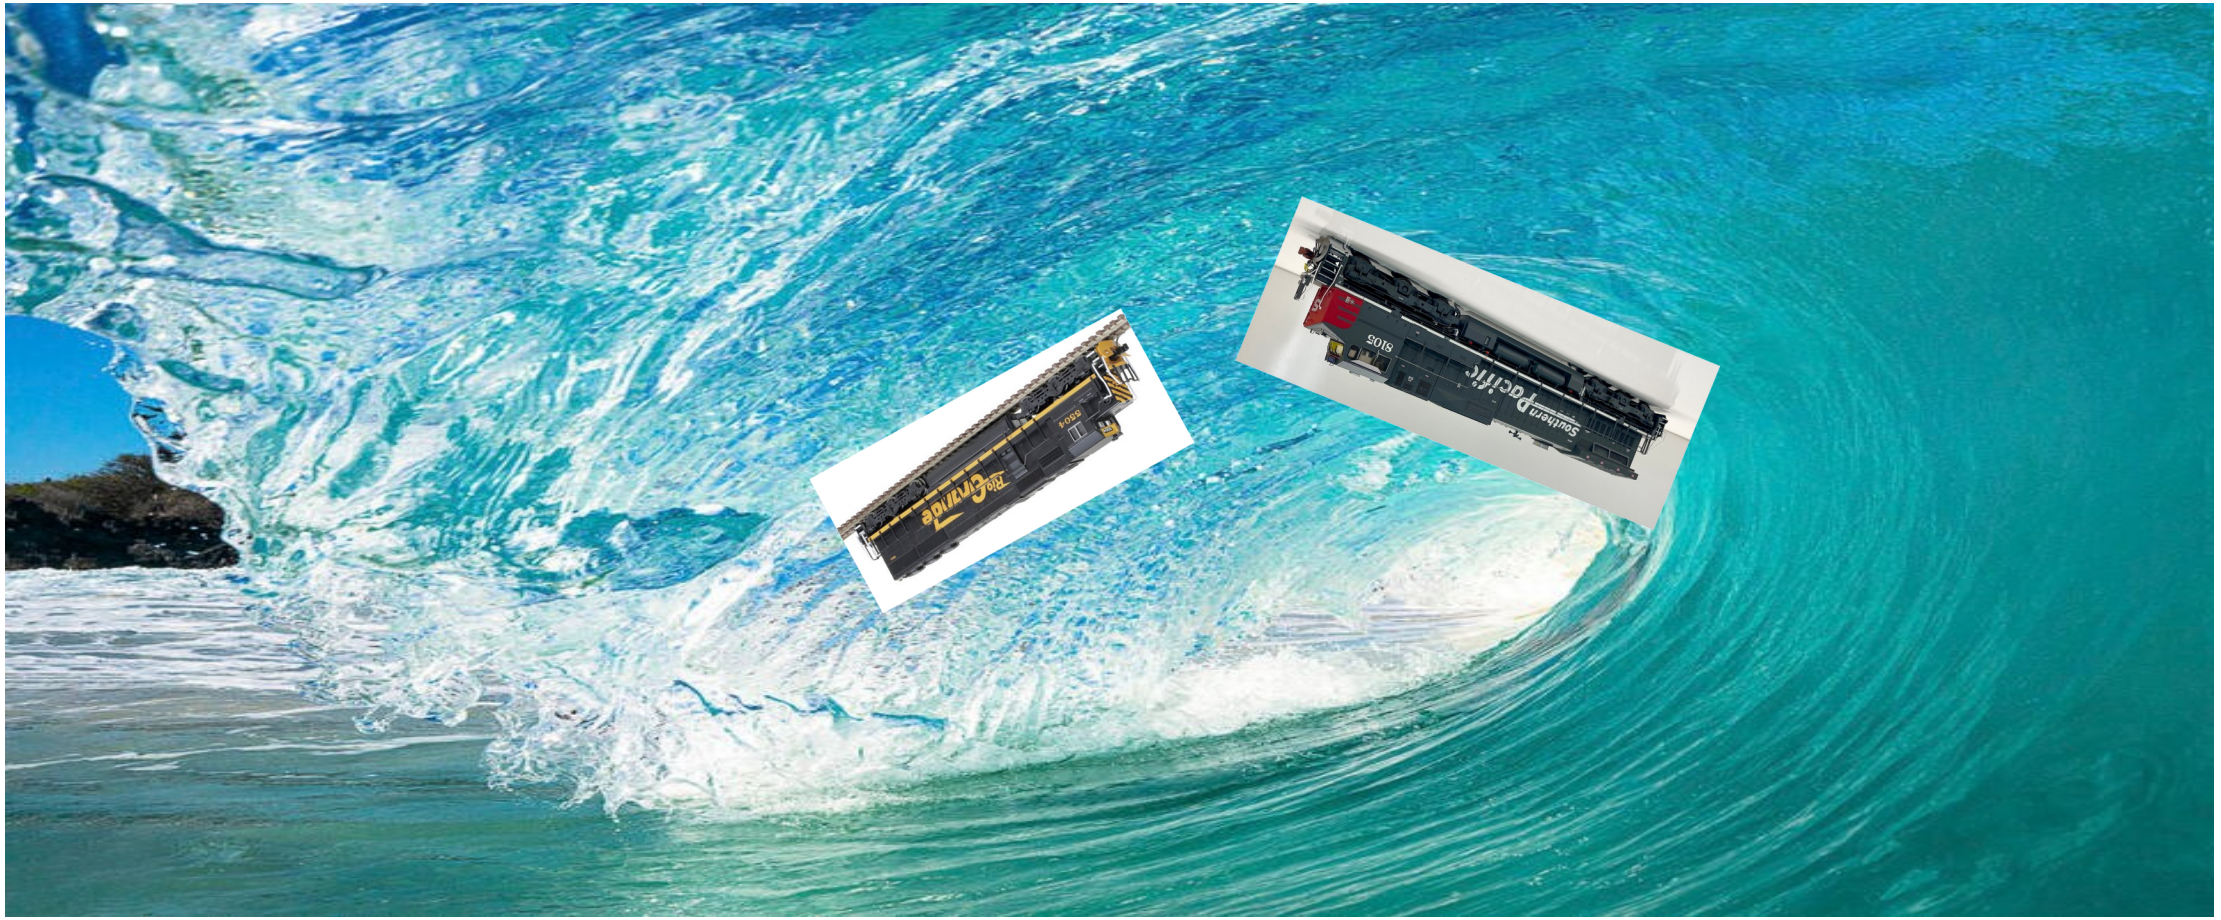
At the beach the trains watched the tide come in and out.

Then the trains played in the water and waves.

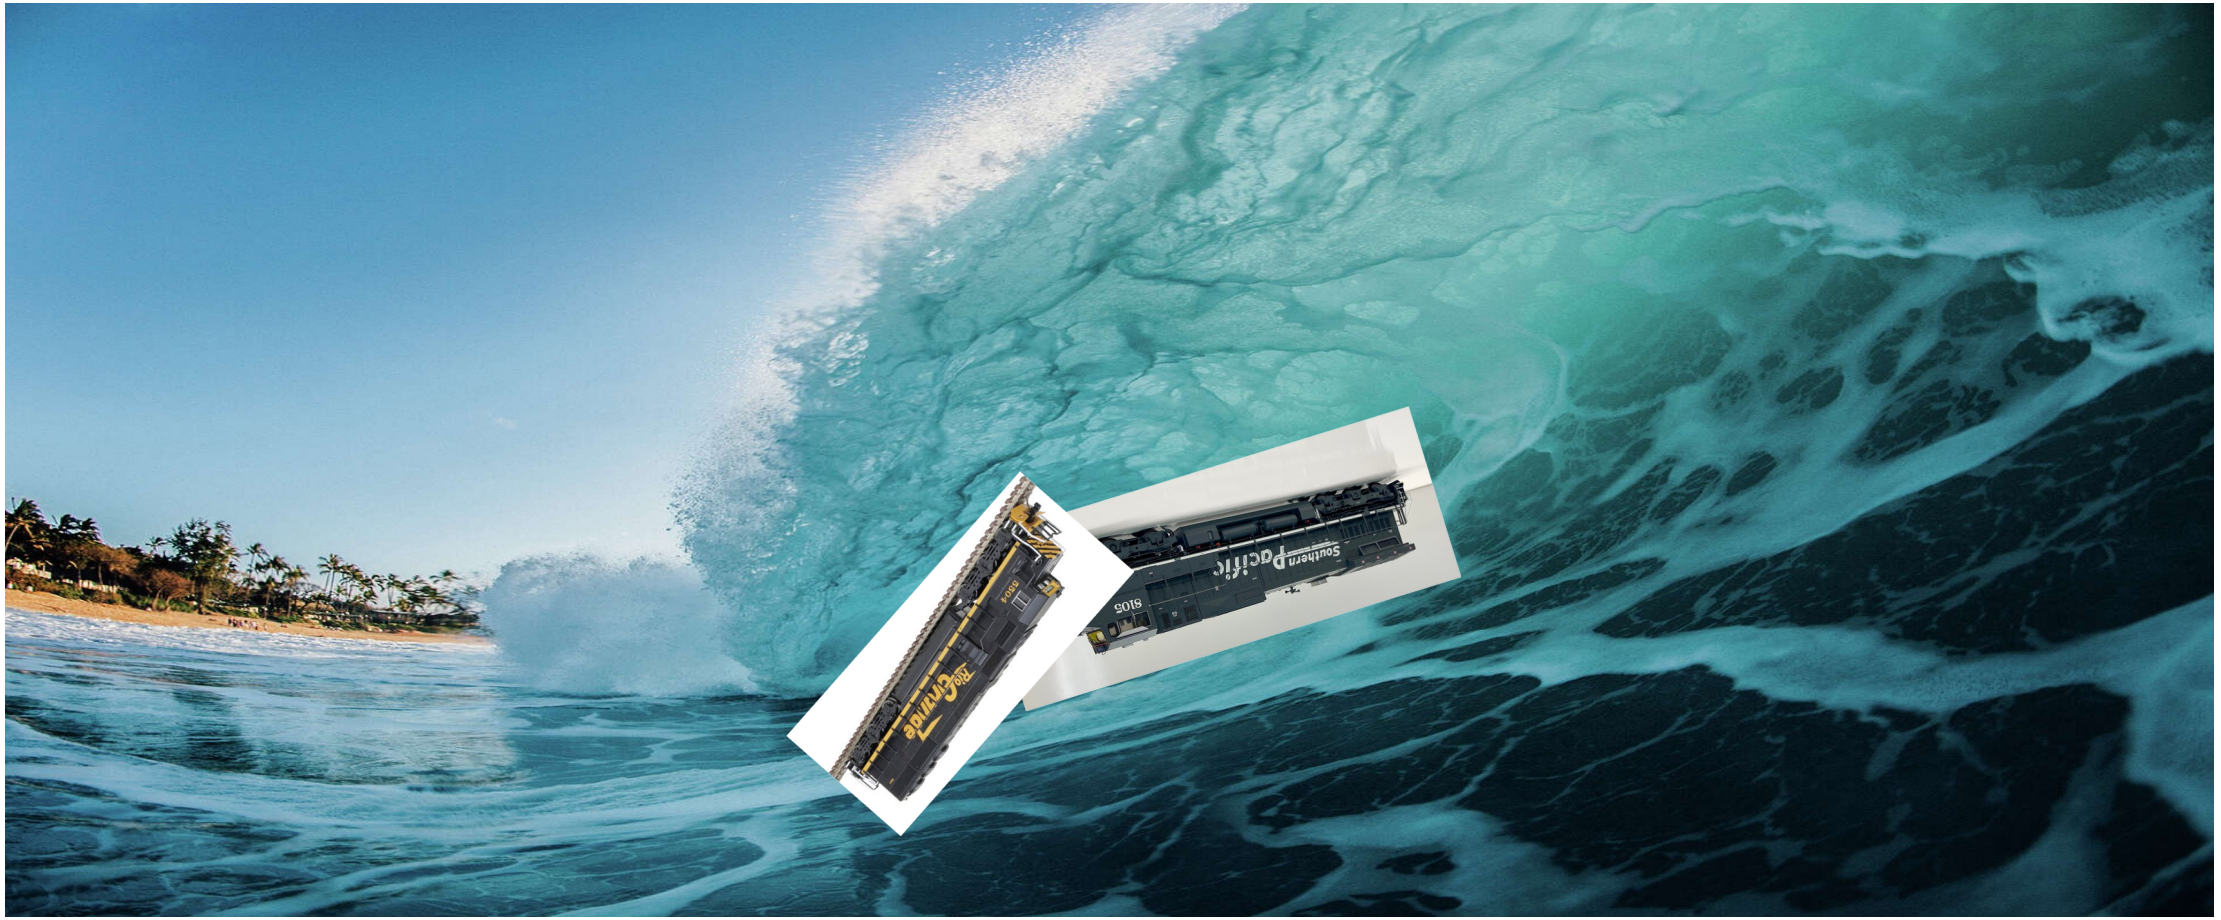
Then the trains rode the waves to the beach.

Then one of the trains crashed into the wave.

As 8105 went underwater he yelled HELP!



I’ll save you said 5504.



Then both the trains were underwater.

Then they washed up on the shore.

Then they arrived at the beach and decided to lay on the beach.

As they were laying on the beach they were watching the clouds.

I’m in the yellow zone said 8501. I’m in the yellow zone said 5504. Why are you in the yellow zone 8501 asked 5504.

I’m in the yellow zone because upset said 8501.

Randy asked the trains what they had been doing all day.

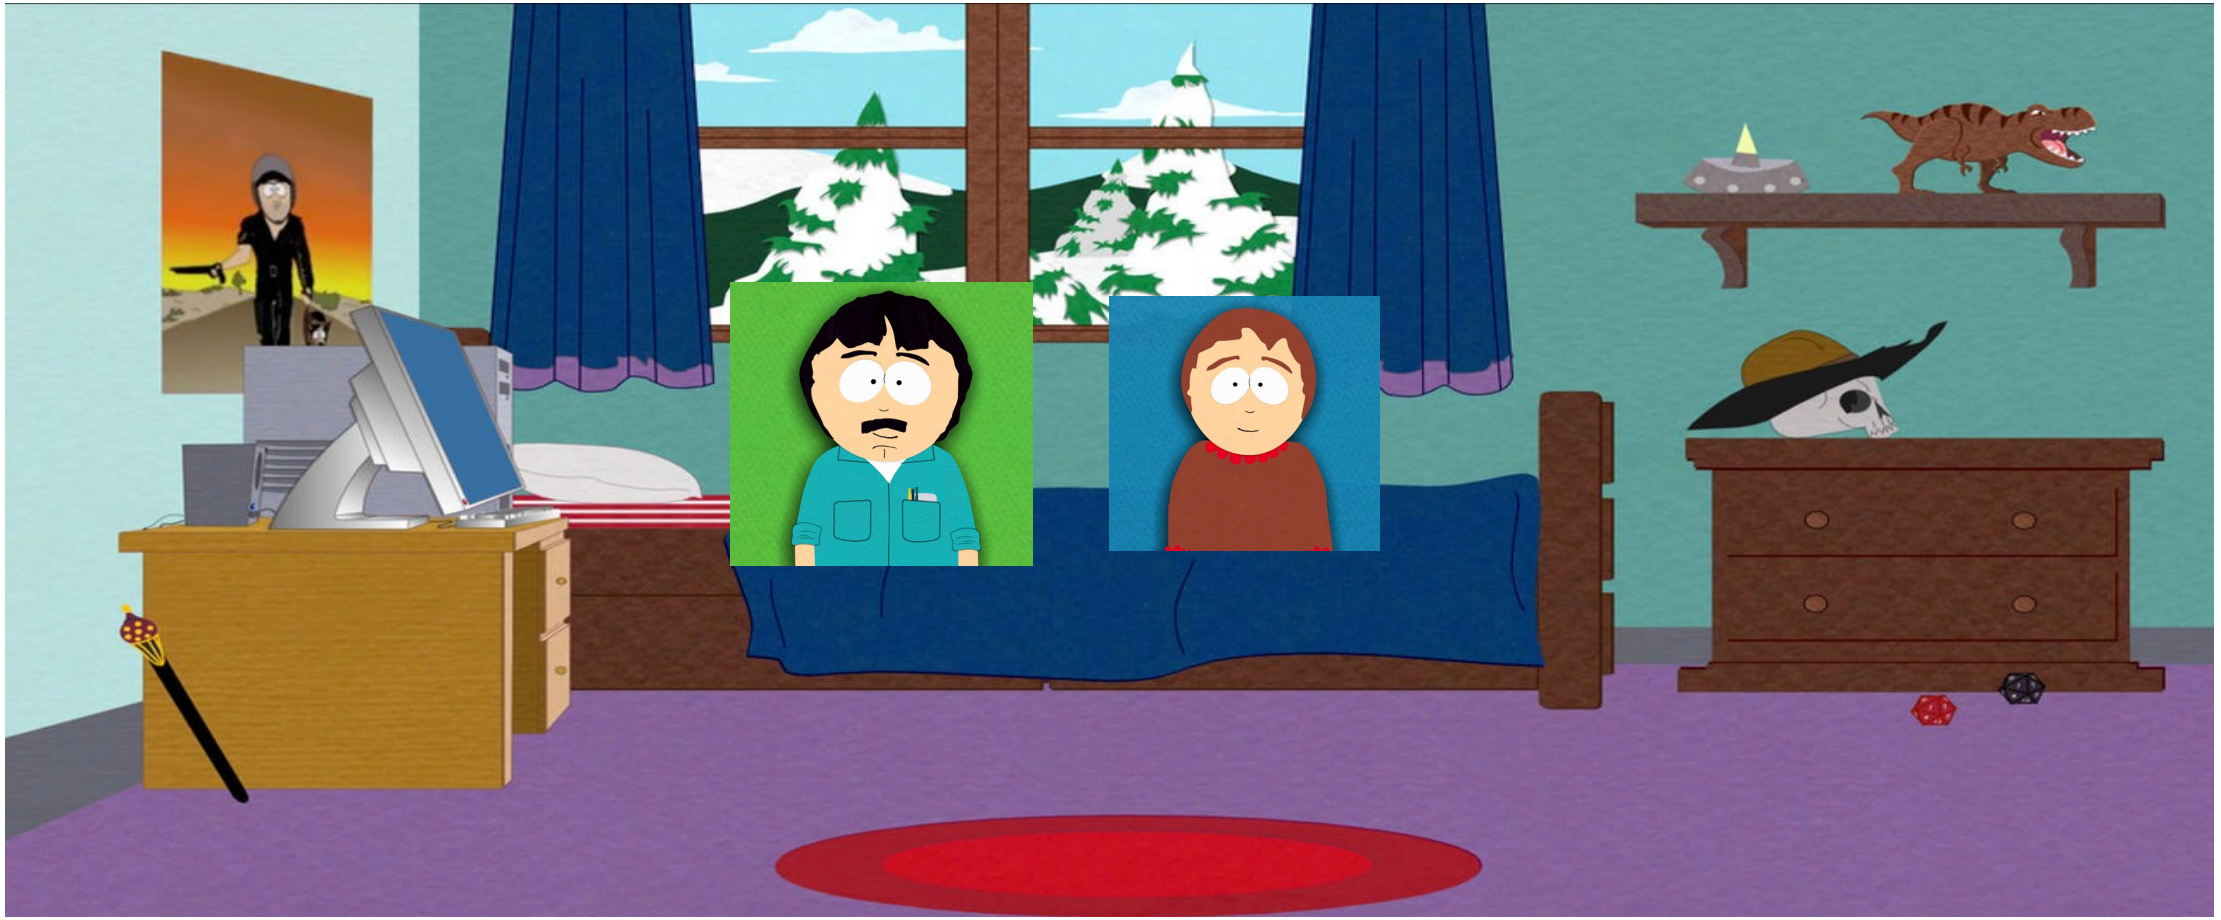
And the trains told Randy about all of their adventures.

I’m upset said Randy. Why asked 8105. Because you didn’t invite me replied Randy.

We will just have to invite you next time Randy said 8501.

Then all of the characters from South Park told the trains that they were mean.

We are sorry said the trains. We forgive you said Randy.

Then the characters went to the room.


Then Randy and Sharon went to the bedroom and went to bed. It was a long day for both of them.
